

# TRA-SER<sup>®</sup> SX

*Current Electrical Data Available Anytime on the Internet*

Bidding and estimating can be a daunting task, having to find current prices for hundreds, if not thousands of items. TRA-SER SX is an online database of 2.0 million electrical parts from over 650 manufacturers with up-to-date pricing and accurate product information. You can import the data right into most major estimating systems, making the process that much easier. TRA-SER SX is the missing link that will streamline your bidding and estimating process, saving you time, increasing your accuracy, and therefore helping you realize more profit.

Search the database by commodity, manufacturer, or a host of other options

Supplier Xchange<sup>™</sup> gets you instant pricing from your preferred suppliers

Manual of Labor Units data available

Long descriptions, color pictures, price history, & manufacturer catalog pages

# TRA-SER® SX
